

METAL DETECTORS

Hand Held Metal Detectors

Security Range MATEX:A, B, C

Matex A: Security Frisker
Matex B: Pilferage Check
Matex C: Covert Search.

With improved circuit design and search-head Matex-B is a high sensitivity Hand frisker. Its capability of detecting small parts makes it ideally suited weapon search at high risk areas and for industrial pilferage checks.

MATEX-C is specifically designed hand frisker for hidden indoor security management. Specific feature for ferrite detection and headphone have been incorporated in the high sensing circuit.

Metascan A:ALPHA

Matex B:BEATA

Matex C:CADET

Features

Format	Security Frisker	Hi Power Frisker	Palm Held Frisker
Construction	Moulded ABS +Metal	Moulded ABS +Metal	Moulded ABS
Special Features	Large sweep	High resolution	Ferrite Discrimination
Approx weight	~ 600 g (w.batteries)	~ 500 g (w.batteries)	~ 200 g (w.batteries)
Power	Ni-Cd Rechargeable	Ni-Cd Rechargeable	Ni-Cd Rechargeable
Charger	Wall mount	Wall mount	Plug in (standard)
Low Batt. Ind.	Lighted	LED Lighted	Lighted
Ferrite detection	Yes	Yes	Yes
Control	Push ON Switch	Push ON Switch	Push ON/OFF switch
Sensitivity	Paper pin	Staple pin	Staple Pin
Range of big objects*	25cm	25cm	20cm
Alarm	Audio	Audio	Audio-visual
Environmental	-10 to+50 C,95%	-10to+50 C,95%Security	-10to+50 C,95%
Typical user	Law Enforcement Security	Checks Intelligence Pilferage Check	Covert detection Indoor Security VIP meets
